I'll structure it like this:

## 4. ABOUT PAGE

### “Our Story” Section

**Heading:**

The Story Behind Lifted Up Junk

**Body (edit for your voice):**

Lifted Up Junk was started with a simple idea: clearing out clutter should be easy, honest, and uplifting.

We saw friends, families, and neighbors overwhelmed by stuff—garages they couldn’t park in, rooms they didn’t use, storage units they were tired of paying for. At the same time, we saw people in our community who could use quality items that were sitting unused.

Lifted Up Junk exists to solve both problems. We remove what no longer serves you and do our best to **lift up others** by donating and re-homing items whenever possible.

---

### “Our Values” Section

Use 3 pillars.

**People First**

We treat every client with respect, care, and clear communication.

**Stewardship**

We handle your items responsibly: reusing, donating, and recycling before dumping.

**Integrity**

No hidden fees. No bait-and-switch. If we say it, we do it.

---

### “Meet the Owner” Section

**Heading:**

Meet the Owner

**Body (template):**

Hi, I'm [Your Name], the founder of Lifted Up Junk. I started this company to combine hard work, honest service, and a desire to make our community cleaner and kinder.

When you book with Lifted Up Junk, you're not just hiring "a guy with a truck." You're partnering with a local business that wants to see your home, your street, and your city lifted up—one load at a time.

(Add a headshot when you can.)
